

The Benefits of Aviation in North Texas Video Series

Electronic Usage Guidelines

General Information

This series of video clips showcases the diversity, economic impact, and quality of life enhancements to our community through general aviation airports. These clips are intended to be tools for the local airports and municipalities to advocate and support their aviation resources. As such, NCTCOG promotes the usage of these videos through a variety of different media, including web sharing and downloads.

To view the segments individually as Windows Media Files, you may download or view them directly from our site. They are large files and may take some time to completely download. Once housed in Windows Media Player, you may also create a playlist that will allow seamless play.
