A Transportation System
Response to Super Bowl XLV

Overview of Efforts in Providing Transportation Services for
Super Bowl XLV and Beyond
Regional Transportation Council
April 14, 2011

Michael Morris, P.E.
Director of Transportation
North Central Texas Council of Governments
Management of Regional Intelligent Transportation System Fiber Network

- Emergency Operations Centers established and linked
- Priority increased because of Super Bowl
- Shared Regional Resource for the future

TxDOT fiber optic was used to connect Arlington, Dallas, Fort Worth, Grand Prairie, and Irving operations centers to the regional fiber network to exchange data and video.
The NFL Experience

Projected Spectators vs Actual Spectators

TOTALS:
Projected 142,000
