“The HOK team will create a clear vision for the Garland Road Corridor that balances all local interests, by offering sustainable mobility, land use and urban design strategies and guidelines that enhance neighborhoods, stabilize existing environments and augment the economic vitality of the corridor.”
PROJECT SCOPE | Scope Overview

DRAFT

STATION 4-2

CONTEXT SENSITIVE DESIGN = Beautification within the Right of Way of Garland Road.

What is the desired approach to aesthetics utilizing landscaping, lighting, signage, planters, pedestrian paving materials and public art?

FUTURE CIRCULATION VISION
A multi-modal approach that will consider the pedestrian, cyclists, and transit and alternatives to the automobile.

What are the existing transportation issues and opportunities that the consultant team should explore and address?

LAND USE & ECONOMIC DEVELOPMENT
Several developments in the corridor have been re-invented multiple times through the years.

What commercial uses in the corridor are currently under utilized and have potential to be reinvented?

What would you like it to become?
We want your ideas & feedback. Please plan to attend the following events:

**November 17, 2009** - Public Review of Visioning Workshop

**Mid-February, 2010** - Public Input to Consensus Vision Plan
